# Submit #785857: Cyber-III Student-Management-System 1.0 Insecure Direct Object Reference

**Title** Cyber-III Student-Management-System 1.0 Insecure Direct Object Reference

**Description** An insecure Direct Object Reference (IDOR) vulnerability exists in the `/viva/update.php` file.  
An attacker can modify the `name` field for a user in the `team_members` table without any authentication, simply by knowing the target username and sending a simple HTTP POST request.
