Submit #793554: zhayujie chatgpt-on-wechat (CowAgent) 2.0.4 Unauthenticated Administrative API Access

Title zhayujie chatgpt-on-wechat (CowAgent) 2.0.4 Unauthenticated Administrative API Access

Description The chatgpt-on-wechat Web Console exposes all administrative HTTP endpoints without any form of authentication or authorization. The HTTP server default, making all endpoints accessible to any client on the network or internet. An unauthenticated attacker can read and modify application configuration (including API keys), connect/disconnect messaging channels, upload arbitrary files, read application logs, and access memory content.
