Submit #795751: tushar-2223 Hotel Management System Latest SQL Injection

Title	tushar-2223 Hotel Management System Latest SQL Injection
Description	A critical unauthenticated SQL injection vulnerability was discovered in the Hotel Management System. The id parameter in roomdelete.php and paymentdelete.php is directly concatenated into SQL queries without any input validation, leading to a full authentication bypass and unauthorized database manipulation.
Details	Full technical details and Secret PoC: https://gist.github.com/freeloader9527/a9ab20c922c6aa2b3eabf93e01a40f6b
