# Submit #769182: Tenda W3 V1.0.0.3(2204) Buffer Overflow

<b>Title</b>	Tenda W3 V1.0.0.3(2204) Buffer Overflow
<b>Description</b>	A stack-based buffer overflow exists in Tenda w3 v1.0.0.3(2204) in formwifSSIDset at /goform/wiflSSIDset. The handler copies the index POST parameter into a fixed-size stack buffer without proper bounds checking. An overly long index value causes stack corruption, leading to a crash and possible code execution.
