WordPress Plugin N-Media Post Front-end Form Arbitrary File Upload (1.0)

Description

WordPress Plugin N-Media Post Front-end Form is prone to a vulnerability that lets attackers upload arbitrary files because the application fails to properly verify user-supplied input. An attacker can exploit this vulnerability to upload arbitrary code and run it in the context of the webserver process. This may facilitate unauthorized access or privilege escalation; other attacks are also possible. WordPress Plugin N-Media Post Front-end Form version 1.0 is vulnerable.

Remediation

Update to plugin version 1.1 or latest
