## Version 1.15.5 Release Notes - Mar 24, 2026

We're pleased to announce the release of BuhoCleaner 1.15.5. This update adds a new drag-and-drop entry for duplicate file scanning, improves interaction reliability in toggle-based item lists, strengthens Helper/XPC security, and brings full support for macOS 26.4.

### New Features

- **Drag and Drop to Scan Duplicates:** You can now drag folders directly into Duplicate Files to start a scan more quickly.
- **Ready for macOS 26.4:** BuhoCleaner is now fully optimized for the latest macOS 26.4 for a smoother experience.

### Improvements

- **Stronger Helper/XPC Security:** Enhanced runtime security checks for privileged communication and improved overall stability.

### Bug fixes

- **Fixed Item Click Issues in Toggle Lists:** Resolved abnormal click behavior in Startup Items and other toggle-based lists.
- **General Fixes:** Addressed several known issues.

## Version 1.15.4 Release Notes - Jan 21, 2026

We're pleased to announce the release of BuhoCleaner 1.15.4. This is a maintenance update focused on bug fixes, resolving several known issues to deliver a more reliable experience.

### Bug fixes

- **General Fixes:** Addressed several known issues.
