[All features \(/index.php/extensions/compare-versions\)](/index.php/extensions/compare-versions)

[Download \(/index.php/extensions/hikashop-starter\)](/index.php/extensions/hikashop-starter)

AI

HikaShop speaks the language of AI. The UCP plugin lets AI assistants discover your products, create orders, and process payments through a standardized API. ChatGPT users can find your products through a dedicated shopping feed (<https://www.hikashop.com/support/documentation/86-integration-with-google-products.html#openai>). Claude and other AI models can connect directly via MCP. One store, every AI platform.

Main features

INTERNATIONAL SALES

HikaShop provides an interface for handling languages, currencies, zones and advanced taxes to sell anywhere in the world.

POWERFUL STATISTICS

Easily manage your store using the built-in dashboard and its powerful statistics capabilities.
