

Security Advisory – Information Leak Vulnerability in Honor E

1. Summary

Honor E APP is affected by information leak vulnerability, successful exploitation of this vulnerability may affect service confidentiality.

This vulnerability has been assigned a Common Vulnerabilities and Exposures (CVE) ID: CVE-2026-31370

For products that have released software updates to fix this vulnerability, Honor will release and update the Security Advisory.

2. Software Versions and Fixes

Product Name	Resolved Product and Version
Honor E	25.02.08.01

3. Impact

Successful exploitation of this vulnerability may affect service confidentiality.

4. Obtaining Fixed Software

The product that supports automatic update will receive a system update prompt. You can install the update to fix the vulnerability.

5. Revision History

2025-03-09 V1.0 INITIAL

6. Acknowledgement

kky(QingYang)

7. Honor Security Procedures

Honor adheres to protecting the ultimate interests of users with best efforts and the principle of responsible disclosure and deal with product security issues through our response mechanism.
