

Security Advisory –Privilege Bypass in AiAssistant

1. Summary

AiAssistant is affected by type privilege bypass, successful exploitation of this vulnerability may affect service availability.

This vulnerability has been assigned a Common Vulnerabilities and Exposures (CVE) ID: CVE-2026-31368

For products that have released software updates to fix this vulnerability, Honor will release and update the Security Advisory.

2. Software Versions and Fixes

Product Name	Resolved Product and Version
AiAssistant	90.0.12.010

3. Impact

Successful exploitation of this vulnerability may affect service availability.

4. Obtaining Fixed Software

The product that supports automatic update will receive a system update prompt. You can install the update to fix the vulnerability.

5. Revision History

2026-03-23 V1.0 INITIAL

6. Acknowledgement

Falcon Hu

7. Honor Security Procedures

Honor adheres to protecting the ultimate interests of users with best efforts and the principle of responsible disclosure and deal with product security issues through our response mechanism.
