User Reviews:

"I'm looking for this software cause it's the only one which you can have more than 1 video in the player. The HTML 5 video player downloads very fast and it works very well till now."

--Randy Steck

"Download the HTML5 video player for Mac couple of days ago. I have a fashion website and have lots of video to update. The video files I uploaded using your HTML 5 Video player is working great in every browser."
