ImpressCMS: Build easily a secure multilingual website.

With this tool maintaining the content of a website becomes as easy as writing a word document. ImpressCMS is the ideal tool for a wide range of users: from business to community users, from large enterprises to people who want a simple, easy to use blogging tool. ImpressCMS is a powerful system that gets outstanding results and it is free!

[Try It Now \(/modules/content/content.php?content_id=1186&page=download-impresscms\)](/modules/content/content.php?content_id=1186&page=download-impresscms)

(/modules/content/content.php?content_id=14&page=features/multilanguage)

(/modules/content/content.php?content_id=14&page=features/multilanguage)

Multi-language (/modules/content/content.php?content_id=14&page=features/multilanguage)

(/modules/content/content.php?content_id=14&page=features/multilanguage)

ImpressCMS speaks different languages at its core, no plugins necessary.

(/modules/content/content.php?content_id=14&page=features/multilanguage)

(/modules/content/content.php?content_id=14&page=features/multilanguage)

(/modules/content/content.php?content_id=14&page=features/multilanguage)

(/modules/content/content.php?content_id=16&page=features/secure)

Wonderful! Very helpful community supporting a fantastic application. I used XOOPS for years and just wanted to try out ICMS, I started with the new 1.1 release... and the features are amazing... long awaited, and exceptional. My new CMS of choice! Also, the talks I have read about the 1.2 release goals, and 1.3 release ideas are awesome. keep up the great work ICMS Team!

- Larry

(<https://www.impresscms.org>)

ImpressCMS is a multi-language content management system for the web. It is community-built, an open source project and based on the common web technologies of PHP and MySQL.
