Perhaps worth noting: I believe NodeJS 17.x is also impacted by OpenSSL CVE-2022-3602 and CVE-2022-3786 -- like > 18.x, 17.x also includes the OpenSSL 3.0.x fork quictls.

However, nodejs 17.x is EOL, so won't see an update. Good thing nobody ever runs EOL'd software!
