## Security advisory for pac4j-core and pac4j-ldap

A security vulnerability affecting the CSRF support in the pac4j-core module has been identified and fixed.

To stay safe, you SHOULD upgrade:

- If you use the 5.x line: upgrade to 5.7.10 (or newer)
- If you use the 6.x line: upgrade to 6.4.1 (or newer)

Another security vulnerability affecting the LdapProfileService in the pac4j-ldap module has been identified and fixed.

To stay safe, you MUST upgrade:

- If you use the 4.x line: upgrade to 4.5.10 (or newer)
- If you use the 5.x line: upgrade to 5.7.10 (or newer)
- If you use the 6.x line: upgrade to 6.4.1 (or newer)

No additional details will be shared in this post.

These vulnerabilities were discovered by Bartłomiej Dmitruk, striga.ai.
