

Red Hat Support

Go beyond support by engaging with our experts

Our teams collaborate with you to ensure you accomplish your goals with Red Hat solutions. The relationship we build with you is designed to provide you with the tools and resources you need to find success on your IT journey.

Configured for your success

We develop a holistic understanding of your experience as a customer by ensuring our support and engineering teams work together.

Our support team works hand in hand with the best engineers in the industry to quickly turn customer feedback into product improvements. This direct line of communication allows us to hone in on proactive fixes that can impact your bottom line.

Find the right level of support

We have different tiers of support designed to meet your unique needs.

	Self-support	Standard	Premium
Access to Red Hat products	✓	✓	✓
Access to our knowledgebase and tools in our award-winning Customer Portal	✓	✓	✓

	Self-support	Standard	Premium
Access to support engineers during standard business hours		✓	✓
Access to support engineers 24x7 for high-severity issues			✓

We also feature specialized support options that can be tailored to the unique needs of companies of all sizes and industries. The Red Hat® Enhanced Solution Support offering reduces downtime and boosts confidence through access to senior level engineers, as well as resolution and restoration SLAs—helping you stay up and running as you innovate, scale, and deploy. Our engineers help restore your operations quickly and accelerate the path to final resolution, identifying the root cause which helps protect against recurrences in the future. Enhanced Solution Support engineers, who are already familiar with your environment, will be there to assist with critical issues in production environments so that you can consistently deliver the cloud services your customers demand. This offering is available for Red Hat OpenShift® and Red Hat OpenStack® Platform customers.

Personalized support

Connect with a technical adviser for collaborative planning and specialized guidance. Our Technical Account Managers help you streamline deployments, resolve issues, and shape your technology strategy to meet your toughest business challenges.

What they're saying

We have found the support from Red Hat to be exemplary. Whenever we need anything from them, they have given it ... Red Hat is now our backbone. Our business cannot run if Red Hat is not there.

Ashishkumar Chauhan
CEO, BSE

I like the fact that they really dig into things and then provide answers. As the single Linux guy, I kind of need that second admin next to me sometimes to say, "Hey, what about this?" and I am able to do that through the portal. I get my questions answered and trouble tickets resolved.

Erik Widholm
Sr. Enterprise Engineer
