# Lumina Gray App Using HTML, CSS, and JavaScript with Source Code (/javascript/18701/lumina-gray-app-using-html-css-and-javascript-source-code.html)

Submitted by razormist (/users/razormist) on Tue, 03/31/2026 - 23:31

(/javascript/18701/lumina-gray-app-using-html-css-and-javascript-source-code.html)

The Lumina Gray App is a lightweight web application built entirely with JavaScript. It features a simple design that allows users to instantly convert images to grayscale. The Lumina Gray App Using JavaScript is an excellent project for learning how to generate and manipulate images. This project provides a valuable opportunity to practice and strengthen fundamental JavaScript programming skills

# Whack a Mole Game Using Tkinter in Python with Source Code (/python/18700/whack-mole-game-using-tkinter-python-source-code.html)

Submitted by razormist (/users/razormist) on Tue, 03/31/2026 - 23:21

(/python/18700/whack-mole-game-using-tkinter-python-source-code.html)

The Whack-a-Mole Game is an interactive desktop application built entirely with Python using the Tkinter library. The gameplay is simple yet engaging: you need to click the mole using the left mouse button whenever it appears in a random hole. The Whack-a-Mole Game Using Tkinter offers fun and immersive gameplay, requiring quick reflexes to hit the mole and earn points. This project is an

## How to Find the i-th Smallest Element in Linear Time in Python (/tutorial/python/18698/how-find-i-th-

# smallest-element-linear-time-python)

Submitted by razormist (/users/razormist) on Mon, 03/30/2026 - 23:14

(/tutorial/python/18698/how-find-i-th-smallest-element-linear-time-python)

In this tutorial, we will learn "How to find the i-th smallest element in linear time in Python". The main objective is to understand and implement an efficient method for finding the i-th smallest element in linear time. This guide will walk you step by step through the process, making it easier to follow and apply. By the end of this tutorial, you will have a solid understanding of how this algorithm works in Python, helping you strengthen your problem-solving abilities and improve your overall coding skills in data structure implementation.
