[\(/tutorial/python/18734/how-find-odd-occurring-number-list-python\)](/tutorial/python/18734/how-find-odd-occurring-number-list-python)

In this tutorial, we will learn how to program "How to Find Odd Occurring Number in a List in Python". The objective is to find the odd-occurring number in a list.

This tutorial will guide you step by step through the process of identifying the element that appears an odd number of times. By the end of this tutorial, you will have a solid understanding of how to implement this solution effectively in Python, helping you strengthen your problem-solving abilities and improve your coding skills.
